

MIHIR BHATT

Software Developer | Python & SQL Developer | Backend & Web Development

+91 90797 81144 | mihirbhatt1394@gmail.com | Mumbai, Maharashtra, India

[linkedin.com/in/mihirbhatt](https://www.linkedin.com/in/mihirbhatt) | github.com/mihirbhatt

PROFESSIONAL SUMMARY

Software Developer with hands-on experience building full-stack web applications using Next.js, React.js, TypeScript, and Python. Skilled in backend development, REST APIs, and database design with PostgreSQL, MySQL, Oracle Database, and Prisma ORM, including authentication and role-based access control (RBAC). Experienced in writing SQL and PL/SQL for query optimization, normalization, and CRUD-based data operations. Also brings applied data analytics experience using Python and Excel-based tools, with a strong foundation in problem-solving and software development practices.

EDUCATION

B.Sc. in Information Technology — Thakur College of Science & Commerce, Mumbai University 2023 – 2026

CGPA: 7.41 / 10

HSC (Science – PCM), RBSE Board 2022 | 83%

TECHNICAL SKILLS

Programming: Python, SQL, PL/SQL, TypeScript, JavaScript

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Next.js API Routes, REST APIs, Authentication, Role-Based Access Control (RBAC)

Databases: PostgreSQL, Prisma ORM, MySQL, Oracle Database

Developer Tools: Git, GitHub, VS Code

Core Concepts: CRUD Operations, Database Design, Query Optimization, Normalization, Data Structures, DBMS, Pandas, Matplotlib

PROJECTS

Enterprise School ERP Management System — EduPulse Academy

Next.js, React.js, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, Vercel

- Developed a full-stack Enterprise School ERP Management System enabling administrators, teachers, students, and accountants to manage academic operations on a single platform.
- Implemented role-based authentication (RBAC) and complete CRUD operations with REST-style API functionality to manage students, classes, attendance, examinations, marks, fee records, and notices.
- Designed a PostgreSQL database using Prisma ORM, built responsive role-specific dashboards, and deployed on Vercel; repository: github.com/mihirbhatt13/school-erp

WORK EXPERIENCE

Software Developer — Vidhyarthi Mitra

Aug 2026 – Present

Mumbai, Maharashtra, India | Full-time, On-site

- Contribute to the design, development, and maintenance of web applications and software projects as part of the engineering team.
- Apply problem-solving and debugging skills across the software development lifecycle, collaborating with cross-functional teams to deliver features on schedule.

Data Analyst — InAmigos Foundation (IAF)

Jul 2026 – Aug 2026

Mumbai, Maharashtra, India | Remote

- Collected and analyzed NGO-related data using Microsoft Excel and Google Sheets to support organizational reporting.
- Conducted internet research to gather and validate data, preparing analysis reports summarizing findings.

Python Development Intern — CodeXIntern

Dec 2024

Remote

- Developed Python scripts to strengthen programming logic, debugging, and algorithmic problem-solving skills.
- Completed hands-on assignments covering data structures and control flow, gaining exposure to SDLC practices.

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte (Forage) — July 2026
- GenAI Powered Data Analytics Job Simulation — Tata (Forage) — July 2026
- AI for Business Professionals — HP LIFE — July 2026
- Python for Data Science — NPTEL, IIT Madras — 2025

LANGUAGES

English, Hindi, Gujarati
